

DESCRIPTION

The One Push MPO Fiber Cleaner is a dry cleaning method of fiber optics cleaning used in the operations and maintenance of installations and reworking of works.

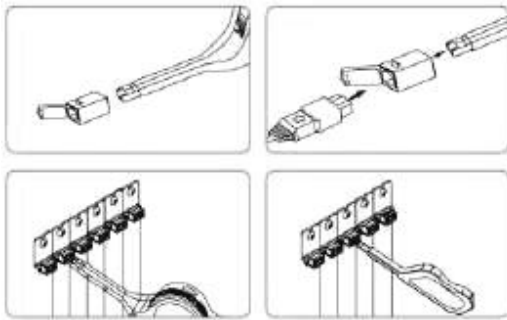

The One Push MPO Fiber Cleaner are designed to clean the fiber arrays on MPO/MTP based connectors. The tool is capable of cleaning MT based connector systems loaded in a bulkhead adapter and on unmated cable assemblies.

The One Push MPO Fiber Cleaner will clean both female (no guide pin) and male (with steel guide pin) patch panel. It will also clean both flat polished multimode and 8°angled singlemode MT ferrules.

Made of non-alcohol high density clean cloth, it can effectively wipes 12 cores at a time.

FEATURES

- Compatible with FOCIS-5 (MPO) connector
- Easy-to-use on outside plant & premise networks
- Spring-loaded tip for controlled cleaning pressure
- New, heavy duty tip
- Cleans male and female MT ferrule
- Cleans dust, particulate & oil contamination
- Fast click-to-clean of MPO & MTP® connectors in & out of adapters
- Cleans singlemode & multimode (flat) MT ferrules, with or without guide pins
- Easy-to-use on data center & high density optical networks

SPECIFICATIONS

Types of Connectors	MPO / MTP (Male and Female)
Dimension, L x W x H (mm)	223 x 15 x 57
Weight (g)	44
Cleaning Capacity	>600 cleaning cycles
