

Unlock High-Performance Data Acquisition with **NI COMPACTDAQ (ETHERNET)**

New Ethernet cDAQ Chassis, NI 9204 Module, & Ethernet cDAQ Bundles

AFFORDABLE, FLEXIBLE, AND READY FOR YOUR TESTS!

We're excited to expand the CompactDAQ portfolio with the new Ethernet Chassis (**cDAQ-9183/9187**) and the **NI 9204** module - giving engineers a cost-effective and efficient way to build simple DAQ systems.

- **Optimized for Ethernet-Based Testing** – Ideal for engineers deploying remote DAQ systems or managing high-channel-count tests with ease.
- **Future-Proof & Time-Saving** – CompactDAQ ensures a flexible, efficient, and scalable test setup, perfect for growing test needs.
- **Unmatched Customization** – Choose from 80+ hot-swappable I/O modules and integrate seamlessly with LabVIEW, FlexLogger, Python, C++, and more.

WHY CHOOSE CDAQ?

QUALITY DATA

- Achieve ultra-accurate timing within 40 ns over 200m Ethernet cables, enabling precise measurements closer to the DUT.

VERSATILITY

- With over 80+ hot-swappable modules, measure almost anything without needing to learn a new system.

RUGGED & PORTABLE

- Engineered for harsh environments, making it ideal for both lab and field applications.

SOFTWARE FLEXIBILITY

- Fully compatible with LabVIEW, FlexLogger, Python, C, .NET, and more for seamless integration.

FASTER SETUP TIME

- Shared cables for synchronization and data reduce complexity

REMOTE OPERATION

- Ethernet-enabled for flexible, distributed data acquisition.

NEW OFFER

NEW QR CODE EXPERIENCE

The new CompactDAQ Ethernet chassis features QR codes for instant access to:

- ✓ **Getting started videos** for quick setup
- ✓ **Relevant documentation** to streamline onboarding
- ✓ **Support resources** to ensure a smooth user experience

OPTIMIZED FEATURE SET

- **Simplified Ethernet Chassis** – A single Ethernet port with no trigger ports reduces costs while keeping core functionality.
- **Streamlined NI 9204 Module** – 16 analog input channels, offering essential features at a lower price.

NEW BUNDLES

- NI CompactDAQ Ethernet Thermal Test Starter Bundle (PN: 868171-01)
- NI CompactDAQ Ethernet Structural Test Starter Bundle (PN: 868172-01)
- NI CompactDAQ Ethernet Shock and Vibration Test Starter Bundle (PN: 868173-01)
