

ONE PUSH CLEANER, MPO

Standard

DESCRIPTION

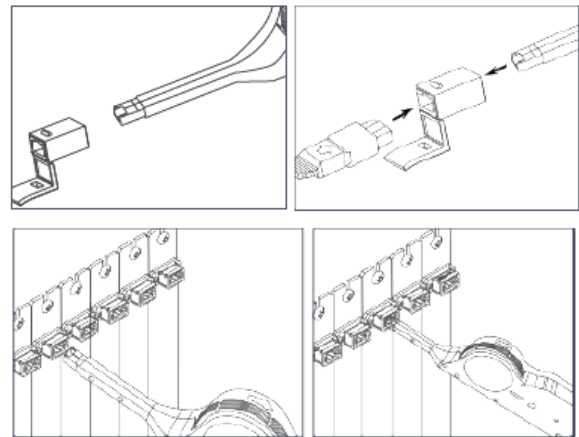

The One Push MPO Fiber Cleaner is a high-performance tool designed for cleaning MPO/MTP connectors. Made with alcohol-free materials, it effectively cleans the end faces of optic fibers. It can clean either 12 or 16 cores simultaneously. This cleaner is suitable for both MPO/MTP male end faces (ferrules) and female end faces (adapters).

FEATURES

- Efficiently cleans various stains
- Compatible with FOCIS-5 (MPO) type connectors
- Cleans connector end faces
- Cleans adapter end faces
- Slim design for densely packed MPO adapters
- Easy to operate
- Over 600 cleanings per unit
- Low cost per cleaning

APPLICATIONS

- Cleans both multimode and single mode MPO connectors
- Capable of cleaning bulkhead end faces
- An essential, efficient tool for FTTH toolkits
